Professional Experience

Full Stack Developer | Microace Software
Halisahar, West Bengal | April 2025 – Present

- Built a web-based POS billing platform using **Next.js, TypeScript and Firebase** for Taste N Bite, supporting daily product billing across its franchise network.
- Developed the companion mobile ordering application and admin portal; **200+ franchises use the mobile app daily** to place orders.
- Built **Hisab Restro**, a web and mobile restaurant management application supporting billing, Kitchen Order Ticket (KOT) generation and table QR-code ordering.
- Enabled restaurant customers to place orders by scanning a QR code at their table.
- Developed business websites including microacesoftware.com and tnbpos.in.

Independent Product Development

Founder & Developer | BuildNerd Technologies buildnerd.in
Independent venture | Sole proprietorship

- Built **Catalogue** for Excel product imports, dealer-specific price lists and WhatsApp order requests, and **Catalogue Studio** for batch photo preparation and CSV-to-PDF price lists.
- Developed **BuildNerd Quotes** for quotations, proposals, PDF exports, client approvals, invoicing and payment tracking.
- Built **Create QRcode** for static QR downloads and editable dynamic links, and **BuildNerd Bookings** for salon appointments, staff calendars, walk-ins and customer history.

Rupvia | Offline Money Manager

- Developed an offline money management mobile application.
